

EXPERIENCE YOU CAN COUNT ON

Our Injury Prevention and Worksite Wellness team is among the most experienced in our industry. We provide consulting services to help determine what priorities to consider and how best to implement new procedures and programs. Our team takes a proactive approach to provide the range of services you need. This includes not only risk assessment and safety, but a focus on underlying issues with employee health. We partner with you to evaluate and measure the success of your IPWW plan.

THE A.I.M. MUTUAL APPROACH

Partnership: Broad Based Consulting

- Identification of the key decision-makers, who share responsibility and accountability for developing detailed service plans
- Recommendations and a distinct service focus looking to the root causes of major loss sources
- Service frequency, driven by your needs and exposures

Putting Wellness in its Place

- Review A.I.M. Vantage, a customized program available to New England policyholders
- Analyze claim experience to include identifying health risk factors

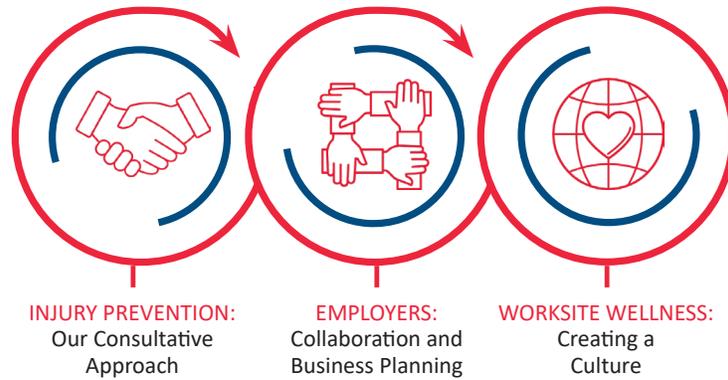

Performance: Policyholder Metrics

- Set specific metrics to monitor the progress of business plans against expected outcomes
- Provide services beyond the hazard or actual loss to target any contributing factors
- Create a client-focused strategy and plan of action
- Direct access to resources which support program development and improvement

Collaboration: Training and Sustainability

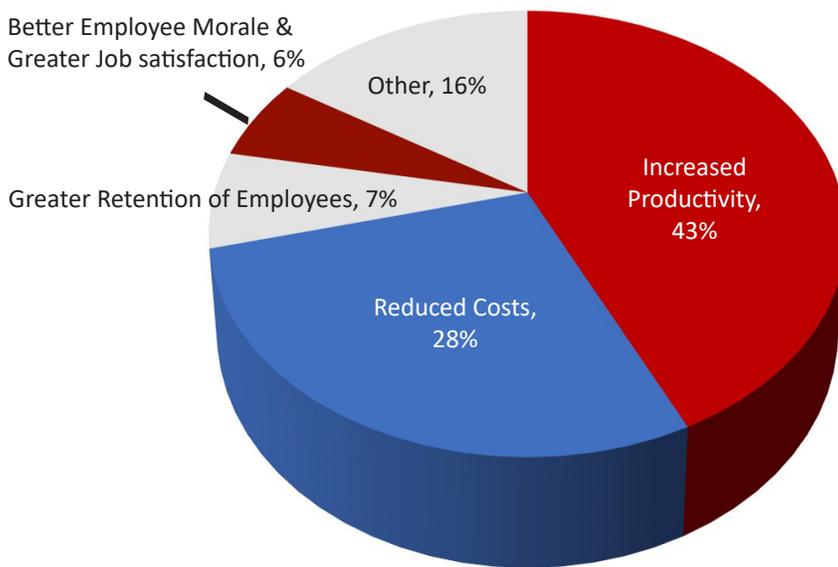

- Need-based training, with clearly defined objectives, outcomes and performance metrics
- We support a “Train the Trainer”-based program, designed to instill sustainability and cultural buy-in
- Training is determined by the IPWW Consultant working with your key decision-makers

EXPANDING OUR CONSULTATIVE APPROACH

Injury Prevention & Worksite Wellness (IPWW) brings our newest initiatives in workers' compensation insurance management to employers. Our wellness programs were developed to address the well-being of your employee population. There are often other contributing health factors at the time an employee has a work-related injury or illness. These factors can extend a worker's recovery time and drive up the cost of workers' compensation. IPWW brings it all together for you, providing you with ways to prevent injuries and improve your return to work rates. We look forward to working with you.
